CAREER SUMMARY

An aspiring Web Developer with knowledge in both technical skills and creative design. I have a background in studying 3D animation and modeling, devoting myself to creating engaging and beautiful-looking experiences. My goals are to combine both my artistic and programming expertise and take them to the next level by creating interesting and interactive web experiences for users.

As a former 3D art and animation student who graduated with a Diploma in Game Art & Animation, and a full-fledged Certificate in Full-Stack Immersion, I know what it takes to make interesting and interactive web experiences.

Therefore, I am highly interested to combine both my skills as a Programmer and an Artist to contribute and make a strong impact on your team.
